

Activ-Vial™ portfolio

Simple, Safe and Secure Product Protection

Are you looking for a way to manage moisture-sensitive products to enhance product stability and extend shelf-life?

Aptar CSP Technologies has the solution.

For over 30 years, Aptar CSP Technologies has been the global leader in delivering innovative desiccant and other gas scavenging solutions to enhance product stability, extend shelf life, and enable new packaging options for manufacturers. Aptar CSP Technologies is a responsive, flexible partner committed to offering customers a single, reliable source for custom product design, development, and manufacturing.

The Aptar CSP Technologies **Activ-Polymer™** system is the ingenuity behind our **Activ-Vial™** portfolio, which is commonly used by leaders in the pharmaceutical and diagnostics industries. Aptar CSP Technologies has advanced manufacturing methods that ensure moisture-tight containers with a desiccated plastic sleeve that sets the industry standard for desiccant vials and bottles.

Our Activ-Vial™ portfolio consists of the one-piece, flip-top desiccated and non-desiccated vials and bottles across a range of sizes. Both formats provide manufacturers various options to satisfy packaging requirements and deliver unparalleled protection that ensures product stability and maximizes product shelf life.

Aptar CSP Technologies solutions have a proven track record in the commercialization of Child Resistant (CR) and Senior Friendly (SF) closures for global brand name products. Aptar CSP Technologies also has a wide range of regulatory-compliant solutions that can be tailored to meet customers' specific needs and improve consumer experiences.

Benefits

- Ensures product stability
- Enhances branding for premium products
- Expertise in Child Resistant CR, tamper-evident safe design
- Customization, ability to mold bottles and closures

Features of the Activ-Vial™ flip-top container

- Easy open/close, "click" sound
- Moisture-tight and leak-proof sealing
- Attached lid cannot be lost or misplaced

Engineered desiccant sleeve

- Controlled moisture adsorption
- Surrounds product

Features of the Activ-Vial™ bottle

- Compatible with standard screw caps

Industries Served

- Pharmaceuticals
- Diagnostics
- Probiotics/Nutraceuticals
